

Release Plan
Fam
Group 19
Release 1.0.0
April 14, 2017
v1.0.0, 04-14-2017

Team Members: Bryan Ko, Anthony Lee, Vincent Wu, Joey Liu, Kaitaku Takeda

High Level Goals: Get people to find things to do near the user. Suggestions are given from the community's input. Find out what friends are up to. Create a group of friends to hold an event

User Stories:

Sprint 1

- (5) As a developer, I want to use mongodb so that we can have a database of all users
- (5) As a developer, I want to use the google map api so that we have a map to build off the project
- (3) As a user, I want a login page so that I can have my own account to do stuff on the application
- (8) As a user, I want a friendly UI so that I won't have trouble trying to find my way around the application

Sprint 2

- (5) As a user, I want to add friends so that I can see what places they have been up to
- (5) As a user, I want to create a group so that I can have specific people know of an event
- (5) As a user, I want to get an alert when there's a nearby event so I won't miss out
- (3) As a user, I want a filter so I can narrow down my field of interests
- (5) As a user, I want to be able to rate and review locations so I can choose depending on them

Sprint 3

- (8) As a developer, I want to polish the code so that it's easier to read
- (3) As a user, I want to make my group private so I can have only certain friends come to the event
- (5) As a user, I want suggestions of locations so I can find a place to go
- (13) As a developer, I want a mobile version of the application
- (8) As a user, I want to be able to login with facebook, google, etc. for convenience

Product Backlog:
