v1.0.0, 04-20-2017

**Team Members:** Bryan Ko, Anthony Lee, Vincent Wu, Joey Liu, Kaitaku Takeda

**High Level Goals:** Get people to find things to do near the user. Suggestions are given from the community's input. Find out what friends are up to. Create a group of friends to hold an event

**User Stories:**

Sprint 1

- (8) As a developer, I want to use the google map api so that we have a map to build off the project
- (5) As a developer, I want to use mongodb so that we can have a database of all users and groups
- (5) As a user, I want a homepage that has the overview of the application before creating an account
- (8) As a user, I want a signup page so that I can register and create an account on the application
- (8) As a user, I want a login page
- (8) As a user, I want a friendly UI so that I won't have trouble trying to find my way around the application

Sprint 2

- (13) As a user, I want suggestions of locations so I can find a place to go
- (8) As a user, I want to be able to input suggestions of locations for other users to see
- (8) As a user, I want to be able to rate and review locations
- (5) As a user, I want to add friends so that I can see what places they have been up to
- (5) As a user, I want to create a public/private group so that I can have specific people know of an event

Sprint 3

- (3) As a user, I want a filter so I can narrow down my field of interests
- (5) As a user, I want to get an alert when there's a nearby event so I won't miss out
- (8) As a user, I want to be able to login with facebook, google, etc. for convenience
- (13) As a developer, I want a mobile version of the application
- (5) As a user, I want to be able to see my reviews posted in my profile

**Product Backlog:**
